Lompoc Police Request Direct Reporting Of Suspected Crimes

Incidents can be reported by calling the police department, visiting the station, or through the mobile app

LOMPOC, CA, Nov. 8, 2017 – The Lompoc Police Department wants to encourage the public to report any potential criminal activity directly to the department, so that police can follow up on these incidents.

Recently, several incidents of suspected criminal activity in the area have been posted in social media communities, but not shared directly with Lompoc police. Lompoc police do not have the time or resources to consistently monitor social media forums for crime reports.

Lompoc police Chief Pat Walsh said he and his officers work to maintain open and friendly relationships with community members, and welcome the opportunity to look into any possible crimes.

“We want the community to feel comfortable talking to our Lompoc Police Department about any concerns they have, including potential crimes,” Walsh said. “Our police department is here to serve the public, and we can best accomplish this through open and direct channels of communication,” he added.

Walsh asked that the public report suspected criminal activity to the police department by calling 736-2341, visiting the police station at 107 Civic Center Plaza, or reporting it through the Lompoc Police Department mobile app. Crimes can be reported anonymously if desired.
