Lompoc Planning Division Launches Integrated Sign and Building Permit Application Process

System will provide for easier, faster experience building in Lompoc

LOMPOC, CA, Dec. 4, 2017 — The City of Lompoc Planning Division is now offering concurrent processing of sign permit and building permit applications, making the process of sign approvals in the city faster and easier.

Previously, a sign permit had to be secured before a customer submitted for a building permit. Under the new system, applicants would complete a sign permit application checklist that will be submitted at the same time as the building permit application. The planning and building division will review these items simultaneously. Planning and building fees will be charged when a building permit is issued.

Planning Manager Brian Halvorson said the new system will streamline the permitting process and provide a convenient “one-stop shop” for customers.

“By integrating the planning and building reviews, we will save our customers time, and provide them with a more efficient and overall better application process in Lompoc,” he said.

The new integrated application is available on the city’s website at: www.cityoflomdoc.com/comdev/planning_apps.htm or at the planning division counter in Lompoc City Hall. The public is asked to direct any questions or comments to Cherridah Weigel, Development Services Assistant in the planning division, at c_weigel@ci.lompoc.ca.us or 805-875-2813.

City of Lompoc

The City of Lompoc, known as “The City of Arts and Flowers”, was founded as a town in 1874 and incorporated as a city on Aug. 13, 1888. Prior to the City’s establishment, the building of La Purisima Mission in 1787 marked the earliest European settlement in the Lompoc Valley. Growth in the Lompoc Valley was sparked by the 1901 completion of the coastal railroad between San Francisco and Los Angeles, which included the extension of a spur into Lompoc. The Lompoc Valley is home to Vandenberg Air Force Base, the first missile base of the United States Air Force. Today, the City of Lompoc is a travel destination known for its downtown mural program, local wines and acclaimed cuisine, historic landmarks, parks and nearby beaches. For more information, visit:
