Lompoc Launches Leak Detection And Repair Rebate Program

Program aims to encourage customers to repair leaks in order to prevent water waste

LOMPOC, CA, July 2, 2018 – In order to encourage City of Lompoc water customers to conserve water and prevent water waste from leaking pipes, the city has implemented a water leak detection and repair rebate program.

The program is offered through the Utility Department Conservation Division. Applicants must be City of Lompoc water utility customers. A rebate of up to \$700 is available.

The rebate program is intended to help customers offset the cost of locating and repairing water leaks requiring the services of a professional.

The rebate may be used to reimburse labor costs associated with leak detection, repair, and plumbing permit fees. A licensed plumber, contractor or leak detection service must repair the leak. Additional rules and an application are available at:

[Water Leak Detection And Repair Application](#)

Applications should be returned to: City of Lompoc, Utility Conservation, 100 Civic Center Plaza Lompoc, CA 93436.

Questions on the program from the community can be directed to the City of Lompoc Conservation Division at: 805-875-8252.

###

City of Lompoc

The City of Lompoc was founded as a town in 1874 and incorporated as a city on Aug. 13, 1888. Prior to the City's establishment, the building of La Purisima Mission in 1787 marked the earliest European settlement in the Lompoc Valley. Growth in the Lompoc Valley was sparked by the 1901 completion of the coastal railroad between San Francisco and Los Angeles, which included the extension of a spur into Lompoc. The Lompoc Valley is home to Vandenberg Air Force Base, the first missile base of the United States Air Force. Today, the City of Lompoc is a travel destination known for its downtown mural program, local wines and acclaimed cuisine, historic landmarks, parks and nearby beaches. For more information, visit:
