Mayor Osborne explained the minutes are typed in a legal size document and that might affect printing on letter size paper, but entire documents can be read in full without interruption of information on the City's website.

CONSENT CALENDAR:

Council Member Cordova asked for Staff to provide a reason why minutes from 2018 were not provided to Council earlier for review and approval; and stated she was told some City Council Meeting videos were unavailable for public review and wondered if these minutes from 2018 were some of those meetings that did not have videos available. City Manager Jim Throop explained the minutes are currently prepared in a summary format, which can take quite a lot of time to prepare and suggested the Council may want to change the format to action minutes in the future, with digital copies of the City Council Meeting recordings used as the supporting record. City Clerk Stacey Haddon stated videos of the City Council Meetings referenced in the minutes provided on this Agenda, were available and had always been available to the public for review.
