March 5, 2013 City Council Meeting

Item 3. Expansion Area D, The Wye Residential development.

After reading the EIR on the Summit View Homes Project, it is clear that this is a well suited development for this property and the city. This is the last piece of property at this busy intersection that needs to be developed as residential.

Please consider it for this purpose and support an annexation proposal to LAFCO.

Without city support the project may happen anyway in the county and the city will then lose the tax income while still providing services to that area.

Lets not let this project get away from us like we did the expansion of the La Purisima golf course. It is now up for sale.

Too bad.

Thanks for your consideration.

Justin and Ann Ruhge
