**SUBJECT:** Federal Aviation Administration Apron Rehabilitation Grant Application

---

## **Recommendation:**

Staff recommends the City Council adopt Resolution No. 5863(13), authorizing the City Administrator or her designee to execute and file the necessary documents for the purpose of obtaining financial assistance provided by the Federal Aviation Administration (FAA) for plans and specifications for rehabilitation of ramp area at Lompoc Airport.

## **Background:**

Staff is applying for a grant from the FAA to develop plans and specifications for the rehabilitation of approximately 210,000 square-feet of ramp area at the Lompoc Airport. That ramp area is approximately 50 years old, was identified as needing to be rehabilitated by a survey provided by Caltrans in 2011 and was previously approved in the FY 2011-13 Budget.

The Request for Proposals that will be issued for this project will also allow for inclusion, as funds are available, to add plans and specifications for the runway extension and access road projects.

## **Fiscal Impact:**

The FAA grant will provide \$180,000 of the estimated \$200,000 for this portion of the project; the City's required ten percent match will come from Airport operating incomes. The FY 2013-15 Budget includes appropriations in account 50000-80102 (CIP Runway Ramp Improvements) for the project predicated on the award of FAA funding. The FAA funding provided for this project comes from entitlement funds provided the Lompoc Airport each year for capital projects. The Airport has approximately \$150,000 allocated each year by the FAA and can hold up to three-years' of entitlement funds in reserve, with the FAA, to utilize for capital projects.

**Conclusion:**

Staff recommends the City Council adopt Resolution No. 5863(13), authorizing the City Administrator or her designee to file and execute documents for the purpose of obtaining financial assistance provided by the Federal Aviation Administration in the amount of \$180,000.
