

Best Management Practices and Requirements For Joint Effort Participants

Start Date

The schedule for BMP implementation refers to the eight three month quarters (e.g., Q2, Q4, etc.) of the two-year Joint Effort and the first quarter following (Q9). For purposes of implementing and tracking Joint Effort BMPs, Quarter 1 will begin upon notification from the Central Coast Water Board. Water Board staff will notify the City of Lompoc by electronic mail of the date that will serve as the start date for Quarter 1.

Best Management Practices

Enforceable Mechanisms

BMP

Develop and/or modify enforceable mechanisms that will effectively implement hydromodification controls and LID. Enforceable mechanisms may include municipal codes, regulations, standards, and specifications.

Measurable Goals

- An analysis of all applicable codes, regulations, standards, and/or specifications that identifies modifications and/or additions necessary to effectively implement hydromodification controls and LID - (Due February 1, 2010 – April 30, 2010)
- Approved new and/or modified enforceable mechanisms that effectively resolve regulatory conflicts and implement hydromodification controls and LID in new and redevelopment projects. (Due August 1, 2011 – October 30, 2011).
- Apply new and/or modified enforceable mechanisms to all applicable new and redevelopment projects. (Due November 1, 2011 – January 31, 2012)

Hydromodification Control Criteria

BMP

Derive municipality-specific criteria for controlling hydromodification in new and redevelopment projects using Water Board-approved methodology developed through the Joint Effort.

Measurable Goal

- Hydromodification Control Criteria. (Due August 1, 2011-October 30, 2011)

Applicability Thresholds

BMP

Select Applicability Thresholds for applying Hydromodification Control Criteria to new and redevelopment projects. Applicability thresholds will be consistent with long-term watershed protection.

Measurable Goal

- Applicability Thresholds. (Due August 1, 2011-October 30, 2011).

Implementation Strategy for LID and Hydromodification Control

BMP

Develop and enact a strategy for implementing LID and hydromodification control for new and redevelopment projects. The strategy will provide appropriate education and outreach for all applicable target audiences, and will include specific guidance for LID BMP design and for complying with hydromodification control criteria. The strategy will also apply LID principles and features to new and redevelopment projects during the two-year period preceding adoption of hydromodification control criteria.

Measureable Goals – Guidance

- Develop, advertise and make available LID BMP Design Guidance suitable for all stakeholders. (August 1, 2010 - October 30, 2010)
- Specific guidance on how to achieve and demonstrate compliance with the hydromodification control criteria and LID requirements made available to new and redevelopment project applicants. (August 1, 2011-October 30, 2011)

Measurable Goals - Education and Outreach

- Documentation of goals, schedules, and target audiences for education and outreach the municipality will conduct in support of the following strategic objectives: enforceable mechanisms, hydromodification control criteria, applicability thresholds, LID BMP design, and compliance with LID and hydromodification control criteria. (February 1, 2010 – April 30, 2010)

- Tracking Report indicating municipality's accomplishments in education and outreach supporting implementation of LID and hydromodification control for new and redevelopment projects. (August 1, 2011-October 30, 2011)

Measurable Goals - Interim LID Implementation

- Apply LID principles and features to all applicable new and redevelopment projects. (February 1, 2010 -October 30, 2011)
- Tracking Report, for the period from February 1, 2010 to October 30, 2011, identifying LID design principles and features incorporated into each applicable new and redevelopment project. (November 1, 2011 – January 31, 2012)

Reporting Requirements

The City of Lompoc will achieve Joint Effort Measurable Goals by the end of Q2, Q4, Q8, and Q9. The City of Lompoc must report to the Water Board on completion of Measurable Goals within 30 days of the end of the quarter in which the Measurable Goal is scheduled for completion. Reporting must include evidence of adequate detail and substance for Water Board staff to determine whether the Measurable Goal is complete.
