### **Lompoc Firefighters Foundation Donates Skid Mount Pump to Department** *The Lompoc Fire Department received a new Skid Mount Fire Pump Donated by the Lompoc Firefighters Foundation*

**LOMPOC, CA, January 20<sup>th</sup>, 2021**

The Lompoc Fire Department took recent delivery of a new Skid Mount Fire Pump that was built by Cascade Fire Equipment. The pump cost \$26,032.46 and was paid for fully by the Lompoc Firefighters Foundation. Over the past decade, the Lompoc Firefighters Foundation has played a significant role in enhancing and adding to our Department's capabilities through its fundraising and donation efforts. Over their time, the Foundation has purchased a significant amount of equipment, such as AED's, extrication tools, wildland equipment, health and safety improvements, as well as a Public Education Trailer. We again thank the Foundation and its members for their continued support of our Department and Community. It is the selfless efforts of its members, and those who have supported them, that has made donations like this possible.

This pump will be installed into a new crew cab utility truck that is expected to replace our 2008 Ford that has been utilized as a rescue response unit.

On behalf of a grateful Department and City, thank you Lompoc Firefighters Foundation!!!
