

MM/DD/YY

Dear Resident,

Your Building Name and City of Lompoc Solid Waste Division want to remind you that compostable and recyclable materials are prohibited in the trash (landfill) bins and trash chutes. The [Mandatory Organic Waste Disposal Reduction Ordinance](#) requires that all single-family, commercial businesses, and multi-family residential dwellings “shall place Source Separated Food Scraps in the Green Container, Source Separated Recyclable Materials in the Blue Container, and Gray Container Waste in the Gray Container” and “shall not place materials designated for the Gray Container into the Green Container or Blue Container.”

On the property, there are bins to:

- Compost – food scraps and plant trimmings/yard waste
- Recycle – flattened cardboard, clean paper, bottles, cans, clean aluminum foil and hard plastics (cups, tubs, etc.)
- Landfill – Styrofoam, broken ceramics and broken glass, disposable gloves, face masks, snack wrappers, diapers, and pet waste

Please contact the property management if you do not know where all recycling or compost bins are located or if you did not receive a guide with more detail about where to put your materials.

You can also find out where to put items by visiting cityoflompoc.com/sw

Thank you,

Your Building Name and City of Lompoc Solid Waste Division
