

Text Additions (Underlined) and Deletions (~~Strikeouts~~) to the 2030 General Plan Noise Element:

Page N-2

### **Noise Sources and Receptors**

Existing noise sources in or near the City of Lompoc include:

- ❖ Vandenberg Air Space Force Base (VASFB)

Page N-9

### **Other Sources of Noise**

Noise from the Lompoc Airport or the VASFB is dependent upon approach and take-off flight patterns, as well as the distance between the sensitive uses and the airports. Figure N-3 shows noise exposure resulting from aircraft operations at the Lompoc Airport and Figure N-4 shows noise exposure resulting from aircraft operations at the VASFB.

Page N-10

Policy 1.4 The City shall encourage Vandenberg ASFB to utilize flight patterns which are the least disturbing to residential areas of the City.

Map updates include:

- The removal of Airport Noise Exposure N-3
- The addition of SBCAG ALUCP Lompoc Airport Noise Compatibility Map Figure 4-1 (new Figure N-3 in the City of Lompoc 2030 General Plan Noise Element) and SBCAG ALUCP VSFB Airport Noise Policy Map Figure 4-1 (new Figure N-4 in the City of Lompoc 2030 General Plan Noise Element)
