

CITY OF LOMPOC

SB 1383 WAIVER REQUEST FORM

Effective January 1, 2022, pursuant to Senate Bill 1383 (2016), all commercial businesses in the City of Lompop, including multi-family residential dwellings, must comply with the State of California's recycling requirements for trash, recycling, and organic waste. Recyclable waste includes aluminum, glass, cardboard & paper products, plastics #1 and #2, and tin/bi-metal cans. Organic waste includes food scraps/waste and yard waste.

Certain commercial businesses may qualify for a waiver from participation in the City's recycling programs. However, only businesses that have requested and received a waiver from the City may avoid mandatory participation in collection service. If a waiver is not approved by the City, a commercial business will immediately be required to subscribe to the City's collection service for all three collection programs.

If you wish to apply for a waiver, the Waiver Request Form must be completed in its entirety. State law regulates the City's processing of waiver requests; therefore, approval of waiver applications is subject to review by CalRecycle.

Waivers must be requested for each type of exemption you believe applies to your business. To remain exempt, state law requires your business to provide written verification of eligibility to the City every five years. In addition, during each of your five-year exemption periods, state law requires you to notify the City any time the volume of waste generated at your business increases beyond the qualifying threshold, or when other relevant circumstances change.

On the Waiver Request Form, you must select the type(s) of waiver(s) you are seeking and provide the requested information.

Backup documentation for all waiver types must be provided with this completed form. There are three types of waivers:

1. DE MINIMIS WAIVER

Commercial businesses may apply for a "de minimis" waiver if they meet the criteria of (A) or (B):

A. The business has 2 cubic yards or more of total solid waste collection service (garbage + recycling + organics) per week, and the business has less than 20 gallons of organic waste subject to collection per week.

or;

B. The business has less than 2 cubic yards of total solid waste collection service (garbage + recycling + organics) per week, and the business has less than 10 gallons of organic waste subject to collection per week.

2. SPACE CONSTRAINT WAIVER

Commercial businesses and property owners may apply for a "space constraint" waiver if they meet the following criteria:

The business or property owner has premises that lack adequate space for separate recycling and/or organic waste recycling container(s).

To qualify for this exemption, the business or property owner must demonstrate space constraints that cannot be addressed by downsizing containers or other solutions. The business or property owner will have to confer with the City to consider all feasible solutions to the space constraint.

The City must have documentation from the business or property owner, or must have other evidence (from City staff, a licensed architect, or a licensed engineer), that the premises lack adequate space for the containers that are otherwise required.

3. THIRD-PARTY/SELF-HAUL RECYCLER WAIVER

Commercial businesses may apply for a "third party/self-haul recycler" waiver if they meet the following criteria:

The business has internal recycling programs that by which it source separates on site and hauls recyclable materials to a diversion or processing facility. Alternatively, the business uses a free recycling program offered by another service provider.

To qualify for this exemption, the business must submit information to verify ongoing programs (e.g., service provider, material type, quantity recycled, and receiving facility.)

If you are eligible and wish to apply for a waiver, please complete the required Waiver Request Form. You may also download this form and email your completed request to sw_admin@ci.lompoc.ca.us.

All third-party recyclers and landscape service providers must have a City of Lompoc Business License, be authorized by the City to self-haul, and must agree to report tonnages and disposal/recycling information to the City periodically as required by State law. Please contact the City of Lompoc if your site involves self-hauling, back-hauling, or 3rd party hauling as a self-haul application will need to be filled out and submitted.

NOTE: Businesses/properties granted waivers will be exempted for a five-year period from state requirements related to the type of exemption(s) requested. To remain exempt, State law requires you to submit written verification of eligibility to the City every five years. During each five-year exemption period, State law also requires that you notify the City any time the waste generated at your business exceeds the qualifying waste-generation amount for any waiver granted or of any other relevant changes. I understand that I may be subject to periodic random inspections and spot checks to confirm the facts provided on this waiver request are accurate. If significant amounts of recyclables and/or organic waste is found in the trash, the approved waiver will be revoked and the account will need to subscribe to the City's franchise waste hauler program to comply with all requirements. Waiver request(s) are not transferable and can be revoked at any time by the City or the State.

By signing this form, you are certifying all information entered is true and accurate and that you have full understanding of your businesses' obligations to provide information, report to, and otherwise fully cooperate with the City, as detailed in the instructions herein which accompany this form.
